To Whom It May Concern:

Kevin Drews, DBA: A Covenant Development, Inc. was the primary contractor in a renovation of a 35 year old, custom built home that I recently completed. Kevin and his crew did a variety of work including demolition of a kitchen and bath, rough and finished carpentry, electrical, plumbing, concrete work, stucco, drywall installation and texturizing, painting, window and door replacement, and tile laying.

I worked closely with Kevin for almost nine months and highly recommend his construction skills, thoroughness to detail, dependability, and honesty. With any renovation there are always unknowns that occur. Kevin always had creative, well thought out suggestions to solve these unforeseen problems.

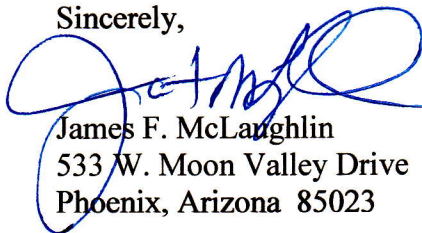

I did some of the work myself, and subcontracted directly for several tasks – new flooring, kitchen cabinets and counter tops, and custom windows. Kevin was a huge help in giving me suggestions to improve my plans, finding alternative sources for products and services, and in communicating with subcontractors on technical issues.

I had originally planned to complete the renovation in phases and take approximately two years. Because of Kevin's hard work, it was all completed in nine months and well within the budget that I had set.

My wife and I could not be more pleased with our new house and would not change a thing.

If you have any questions, please feel free to contact me at (602)866-7063.

Sincerely,

James F. McLaughlin
